

Unit I ID Terms

Below is a list of 15 ID terms. The exam will have 10 of these terms on the exam, and you will identify and write about 8 of them. Tell me what the term is, the estimated historical time period (preferably a decade, but saying mid-century, early, or late century, would work), how it connects to the time period, and why it's important. How did this thing affect expansion, future political agendas, and what were the effects or significance (5 W's – Who, What, When, Where, Why, plus significance). This should be about one paragraph in length. One full paragraph is considered 5 to 8 full sentences.
