

Training Program for your AP Chemistry Exam

Congrats, you have signed up to take the AP Chemistry Exam! This is a challenging event, but you have been training all year and so now it is time to ramp up your training.

Here is our six-week training program to get you ready to take the Exam. This program is designed for students who have been learning AP Chemistry and are in good enough understanding of the content to put this plan into place with little difficulty. I have made this plan to mimic a running program, with short, medium, and long runs (aka studies). Adjust the days as needed to fit your schedule, but try and do the number of runs (reviews) assigned every week. I am providing a list of studying activities that count as runs. At the completion of the program you should be well prepared to run your race---take the Exam!

6-WEEK TRAINING PROGRAM

Week	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Week 1 3/23	Off	Off	Short Run	Off	Short Run	Off	Short Run
Week 2 3/30	Off	Off	Short Run	Off	Short Run	Off	Medium Run
Week 3 4/6	Off	Short Run	Off	Medium Run	Off	Medium Run	Off
Week 4 4/13	Off	Medium Run	Off	Medium Run	Short Run	Short Run	Off
Week 5 4/20	Off	Medium Run	Off	Medium Run	Long Run MCQ Mock	Medium Run	Off
Week 6 4/27	Long Run	Off	Long Run	Off	Medium Run	Medium Run	Short Run
Race Week 5/4	Off(or Cram)	CRAM!	RACE DAY!!				

STRETCH! Select the unit you are going to focus on first. Get your materials out.

- U1 Chemistry Basics Chapters 1-4
- U2 Chemical Reactions Chapters 1-4
- U3 Chemical Kinetics Chapter 12
- U4 Chemical Equilibrium Chapter 13
- U5 Thermochemistry Chapter 6 & 17
- U6 Electrochemistry Chapter 18
- U7 Acids and Bases Chapter 14 & 15
- U8 Atomic Structure and Periodicity Chapter 7
- U9 Bonding and Molecular Structure Chapter 8 & 9
- U10 IMFs and Properties of Matter Chapter 5, 10, 11 & 16

RUN! By picking a study activity! Set a timer!

Pick a different bullet point each run, and if you are fast do another point before your time is up. We suggest that you stretch (pick your unit/chapter of focus) before you start running. In all your studies, **MAKE A LIST OF QUESTIONS TO ASK MRS WHITE IN CLASS! Bolded items can be found in Schoology.**

Short Runs 15-20 minutes	Medium Runs 30-45 minutes	Long Runs 60-90 minutes
• Go through the Learning Targets on your Pink Packet (noting your strengths and weaknesses) and • Study the unit One-Pager in the Review Materials • Go through a section of the Review PowerPoint • Look at the pictures & accompanying chapter in Zumdahl • Check out the "Write This Not That" Section of the Colossal Review Power Point	• Attend tutorials and look over old Test questions • Reread your notes and/or chapter from Tro textbook and rework problems as you go • Make as many connections between as many units as possible (from your notes, old test questions, the review power point, etc.) • Work a section from Princeton Review or another review book • Watch a targeted review video from the 2020 Collection • Watch an AP Live Review video- 2022 or 2023!	• Search up and do the 2017 AP Chemistry Free Response Test (and check answers) • Search up and do the 2018 AP Chemistry Free Response Test (and check answers) • Mock MCQ in Class!
