

Agenda:

- HW: Study for Spatial Concepts Quiz (notes 1.4 & 1.7, 1.1 & 1.6)

Objective & Essential Knowledge

Define scales of analysis used by geographers.

Explain what scales of analysis reveal.

Scales of analysis include **global, regional, national, and local.**

Patterns and processes at **different scales reveal variations in, and different interpretations of, data.**

Warm Up

Measures of a country's wealth

- + Good indicator of wealth
- Poor indicator of wealth

0- neither good nor poor indicator of wealth

DBQ – A question of scale of analysis & inquiry: How wealthy is Brazil?

- ✗ DBQ = Document Based Question
- ✗ You will use background information (background essay) and a set of documents (charts, graphs, interviews, data, etc.) to answer the question: How wealthy is Brazil?
- ✗ You will answer the question at various scales of analysis – local, subnational, global?

Brazil!

Background Essay: Read & Answer Questions

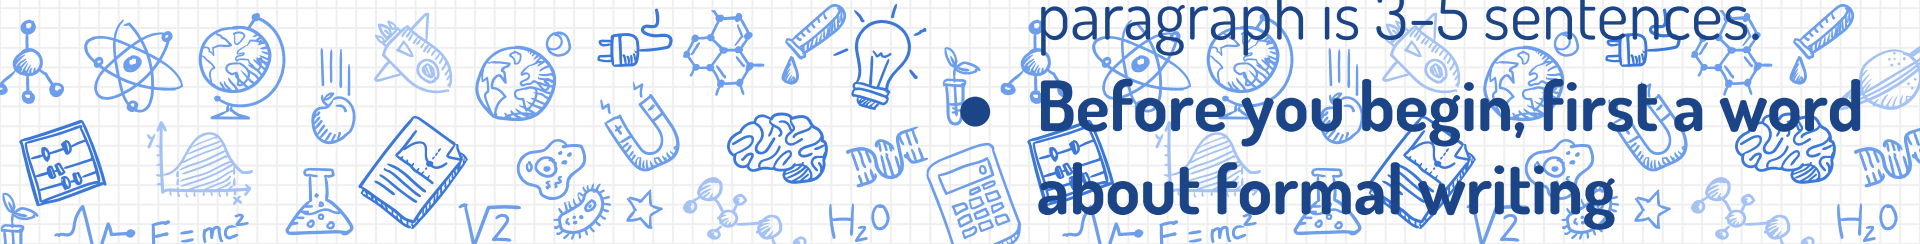

A Question of Scale: How Wealthy is Brazil?

- Documents A – E are in Schoology in today's folder.
- Analyze each document and answer the questions.
- Then, you will compose 3 paragraphs using evidence from documents & your reasoning. A paragraph is 3-5 sentences.

- **Before you begin, first a word about formal writing**

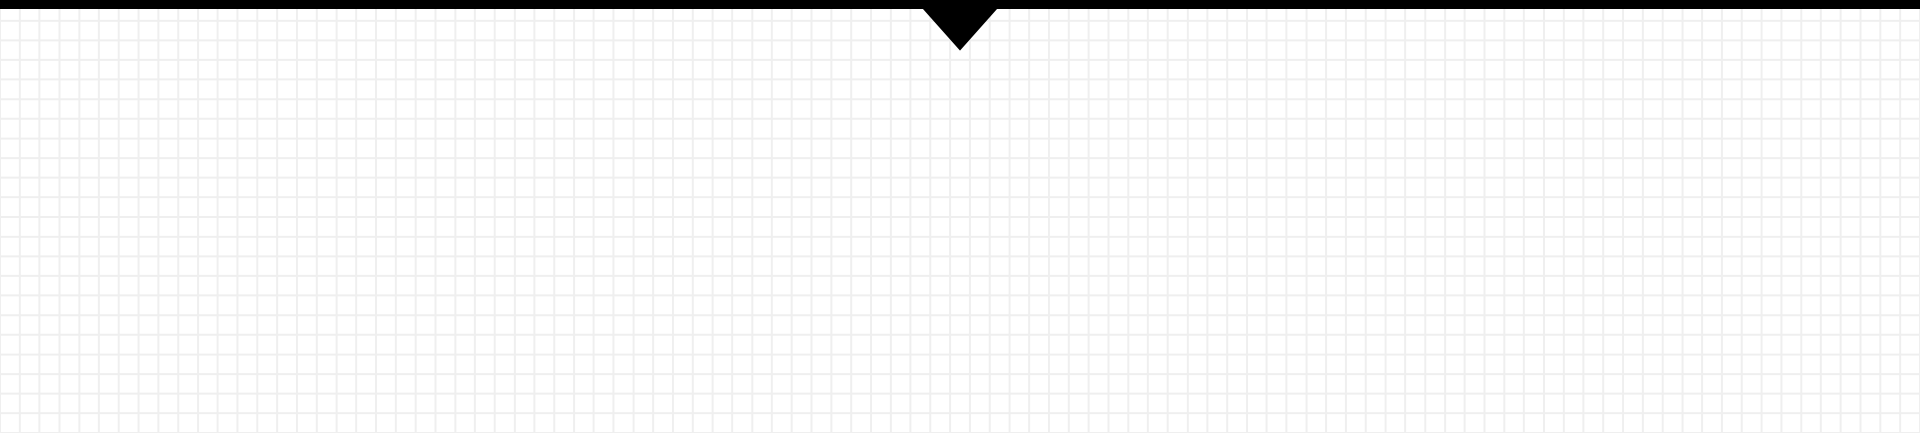

Formal Writing

1. Do not write the way you speak or text. Do not use slang, cliches, emojis, or symbols.
2. Use complete sentences and use proper capitalization rules. Formal Nouns and the first word of a sentence is a capital letter.
3. Do not ask rhetorical questions.
4. Do not write in first person (I, we) or second person (you).
5. Do not use contractions (don't) - write them out (do not).

— — —

**Proofread before you
turn it in!**

Practice!

I think Kobe Bryant was one of the best basketball players to play the sport.

In order to travel abroad,
you need a passport.

The chicken can't cross the road.

The singer definitely new
their was nothing better
then performing at the
super bowl.

Kobe Bryant was one of the best basketball players to play the sport.

In order to travel abroad,
one needs a passport.

The chicken **cannot** cross the road.

The singer definitely **knew**
there was nothing better
than performing at the
Super Bowl.

DBQ: How wealthy is Brazil?

- As you read each document, take note of the scale of analysis most relevant to the document.
- This organizational tool will help you formulate your responses.

Document	Scale of Analysis
A	
B	
C	
D	
E	

Why do geographers say that it is important to analyze problems using different scales?

Document Organization

— — —

Brazil's wealth may change depending on the scale that is analyzed. Would you consider Brazil to be wealthy on a Global scale? Subnational? Local?

Remember that Scale of Analysis is all out how one divides the data (by country, by region of the world or region within a country, by local area within the country(city, town, county/province)).

Remember that Scale of Inquiry is ensuring your scale of analysis helps you answer a particular geographic/spatial question.

Document Organization

Document	Scale of Analysis
A	
B	
C	
D	
E	

As you read each document, consider the scale of analysis of the maps, graphs and text.

Possible **topic sentences** to **begin** your paragraphs...

At a national scale of analysis (implied Global Map Scale), Brazil....

At a subnational scale of analysis (implied national Map Scale), some regions within Brazil are...

At a more local scale, or city level

- **TWO** pieces of evidence from documents should be noted in each paragraph
- **The last sentence** of each paragraph should show your reasoning: connecting evidence to topic sentence

Paragraph Structure:

Topic Sentence

Evidence (2 pieces)

Last sentence ties evidence to topic sentence
