

Day 14, Unit 1.5; September 21 & 22

1. Reading Guide Feedback
2. 7.4 Women & Economic Development
3. GDP Analysis

Reminders

1. Ch. 1 Reading Quiz: Retakes in Raider Time and tutorials from 9/18-9/22; bring Ch. 1 and any Ch.1 notes you may have
2. Last Day for missing Unit 1 Work: TOMORROW!
3. Unit 1 Exam Retakes: Tuesday 9/26 (7:45 a.m. or 4:25 p.m.)

Retakes for Exam

Please check home access next week to review your exam score. If you did not pass, you can retake the exam on **Tuesday, 9/26** in before or after school tutorials.

Tutorials

7:45-8:45 (arrive no later than 7:50)

4:25-5:25 (arrive no later than 4:30)

In order to qualify for a retake, you must submit:

- Fully completed **review guide** (if you haven't already) and
- Complete all Unit 1 AP Daily Videos in AP Classroom

Ch. 1 Reading Guide Feedback

- 50 Points: Completion: each item worth .76 points
- 50 Points: Assessment of selected questions (10 pts. each)
- 5 Point Bonus awarded in Home Access for students who have turned in completed DBQ/Brazil work
- If you are still under a 75 with bonus, you may correct/complete your reading guide for up to a 75 by Thursday, 9/28 (A) and Friday, 9/29 (B)
- Generalized Feedback: Complete SENTENCES!!!!!!!!!!!!!!!!!!!!!! Use your own words.

Ch. 1 Reading Guide Feedback

Field Note

Is there a relationship between a state's wealth and their arable land?

Ideal Sample Response:

This is no/little/a very weak relationship between a state's wealth and their arable land. While some wealthy countries have fairly high percentages of arable land, other wealthy countries have little arable land and countries with some of the highest amounts of arable land, are not always the wealthiest and could be quite poor.

Ch. 1 Reading Guide Feedback

Key Q 2: How is Dar es Salaam an example of sequent occupance?

Ideal Sample Response:

It is an example of sequent occupance because the place was subject to multiple waves of cultural influences from several groups including the migration of Arabs, colonization by the Germans and the British, the latter encouraging immigration of Indians - all of whom left their mark on the city's diverse cultural landscape.

Ch. 1 Reading Guide Feedback

Key Q #3

What are some practical uses for absolute location?

Ideal Sample Response:

Some practical uses for absolute location are:

plotting exact locations on maps/globe using longitude and latitude,
GPS coordinates utilized by researchers/fishers/hunters/runners/hikers,
GPS utilized in cars for navigation purposes and
GPS for Geocaching or treasure hunting.

To receive full credit, must include at least two of the uses noted above.

Ch. 1 Reading Guide Feedback

Key Q #4

Across what four scales do geographers study places and patterns?

Ideal Sample Response:

Geographers study places and patterns at the local, regional, national and global scales.

2 points deducted if not a complete sentence

Ch. 1 Reading Guide Feedback

Key Q #5

How is it (Environmental Possibilism) different than environmental determinism?

Ideal Sample Response:

Environmental possibilism is different from environment determinism in the fact they possibilism gives greater emphasis on how human choices are guided by the group's needs and technological capabilities - not just the physical environment which is the primary, dominating factor influencing the development of societies for Determinists.

7.4 Objective

Explain how and to what extent changes in economic development have contributed to gender parity*.

Parity=Equality

7.4 Women & Economic Development

As countries develop economically, opportunities for women evolve.

Women with more education tend to marry later and have fewer but healthier children.

Educational Opportunities

61% of women with no schooling have a baby before they turn 20 compared with 16% of women with eight years of schooling.

More education means a better chance at earning higher wages.

Economic Opportunities

Women make up 47% of US workforce, but only 27% of CEOs are women. On average, women make 83 cents for every dollar a man makes.

Loans & Investment

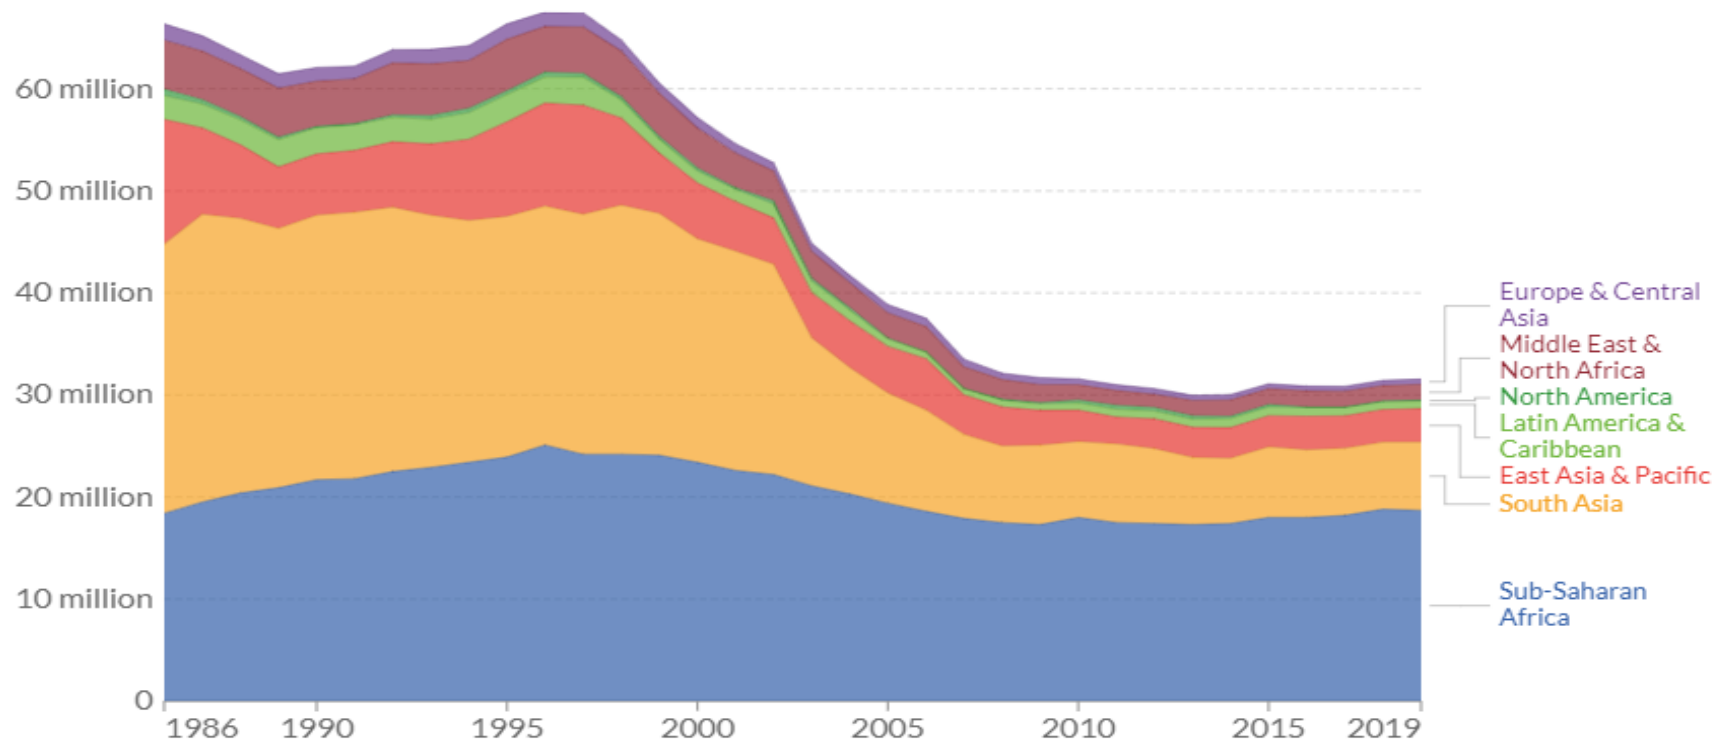

Women run almost 50% of businesses in Rwanda & Ghana! However, husbands can legally deny their wife work outside of the home in some countries.

Girls of primary school age who are out-of-school, by world region, 1986 to 2019

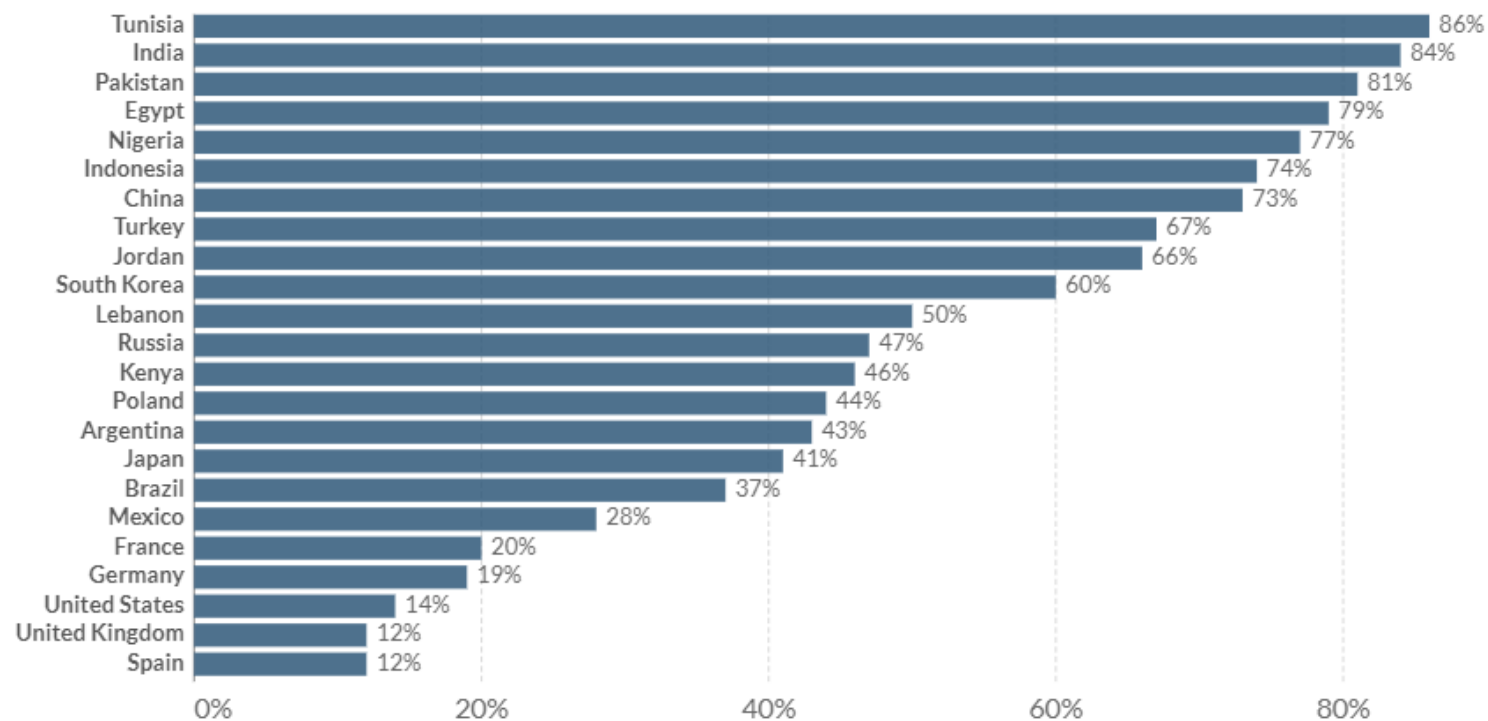

Children in the official primary school age range who are not enrolled in either primary or secondary schools.

□ Relative

Share who agree with the statement 'When jobs are scarce, men should have more right to a job than women'

Paid Leave for New Mothers

The U.S. is one of seven countries without national paid maternity leave. (Some of those nations, small islands in the western Pacific, are too small to be seen on this map.) The average length for those that have the leave is 29 weeks.

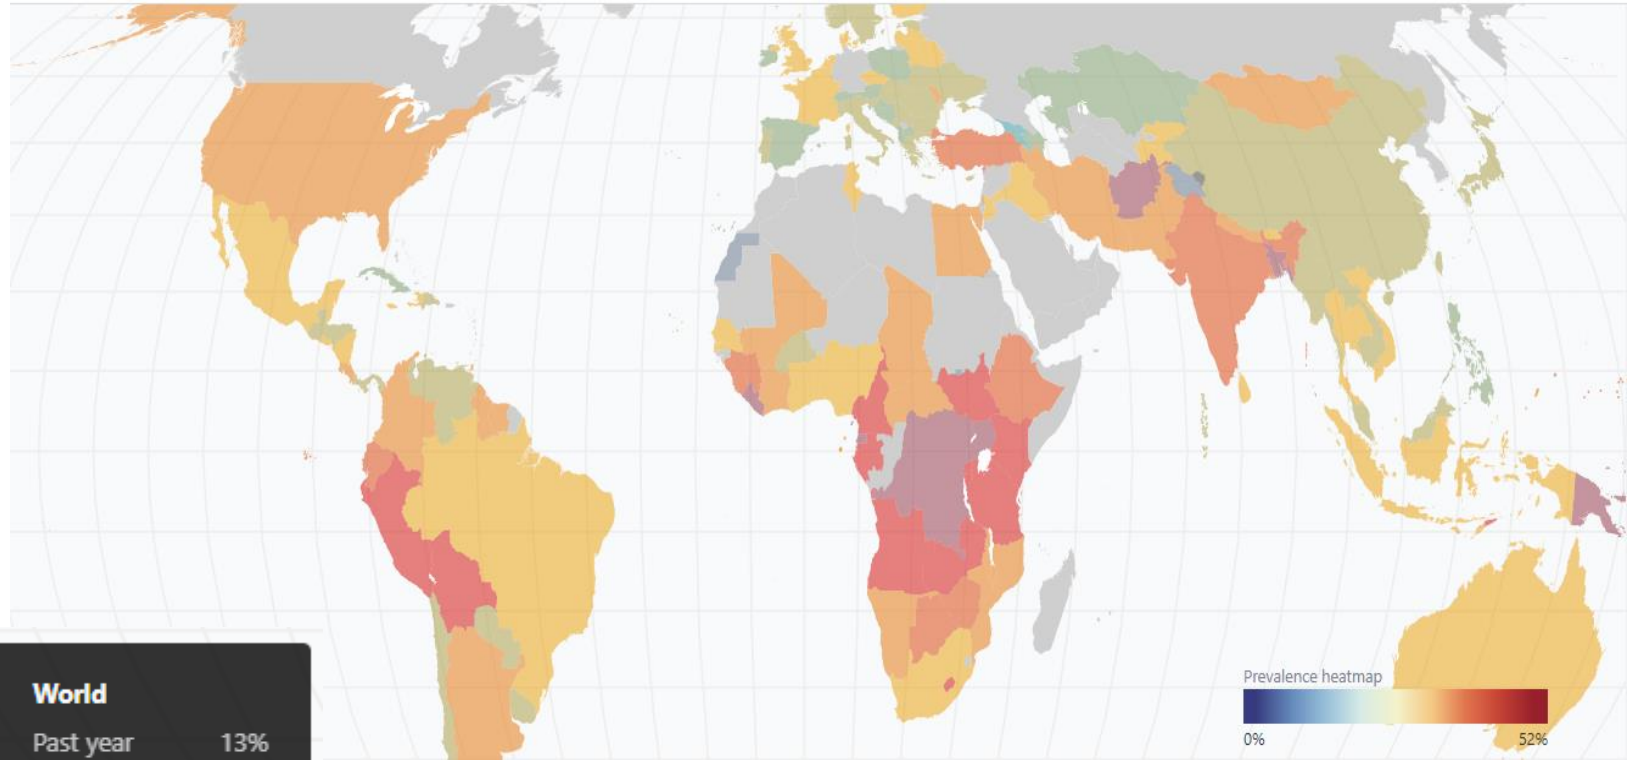

0 weeks Up to 4 weeks 4 to 12 weeks 12 to 24 weeks 24 weeks or more

All leave lengths reflect a period with at least some income provided, in some cases small sums. Maternal leave lengths are a combination of leaves specific to the mother (when available) as well as shared parental leave. Data is up to 2019. Suriname has since added maternity leave.

World Policy Analysis Center, University of California, Los Angeles • By The New York Times

World Health Organization Global Database on the Prevalence of Intimate Partner Violence Against Women within their Lifetime

The Development of the Grameen Bank

Describe how the Grameen Bank can be an example of societal change.

Study Conducted on Effects of Microfinance on Gender Parity

“An increase in the proportion of women accessing microfinance services by just 15% could potentially reduce gender inequality, as measured by the [Gender Inequality Index](#), by half in the average developing nation.”

“Cultural characteristics that govern the relationships between men and women can potentially influence this relationship. For example, pressure on women to take on cooking and rearing responsibilities within the home could potentially limit their ability to fully adopt employment opportunities through microfinance-generated investments.”

GDP Analysis
