

Applying Development Theories to Country Specific Data

Directions: You will research measures of development for an assigned country. Based on your research findings, you will categorize your country within Rostow's Modernization Theory and Wallerstein's World System Theory. You will also make predictions and recommendations about future development and note relevant limitations of theories. Be sure to reference your notes from previous classes to aid you in your work.

Country Assignment: _____

Part I: Human Development Index Research: As you did for GDI, go to this [link](#) and locate your assigned country on the line graph and record you data in the table below. Remember to double check data for country and year accuracy. Details make the difference!

2021 HDI				
Country Group (circle one) <i>Located above line graph on right side</i>	Low	Medium	High	Very High
Change Over Time since 2020 (circle one) <i>see # below 2021 HDI #</i>	Increasing HDI	No Change HDI	Decreasing HDI	
Change Over Time since 1990 (circle one) <i>See country line from 1990-2021 on graph</i>	OVERALL/GENERALLY:			
	HDI trending upward	HDI holding steady	HDI trending downward	
Life Expectancy				
Expected Years of Schooling				
Mean Years of Schooling				
GNI Per Capita				

Part 2: CIA World Fact Book Research: While HDI information is helpful, you will need to dig deeper in order to classify country by theories. Use the links below to dig deeper. Note. If there is data missing for your country, look for other information and indicators in country specific information that could help you. Remember your goal is to find info helpful for theory classifications. Record you data in table below:

Total Fertility Rate	
Labor Force Participation by Occupation	
Population below Poverty Line	
GDP Growth Rate	
GDP – composition by sector of origin	
Percent of Population Living in Urban Areas	
Export Ranking #	
Import Ranking #	
Electricity Consumption Ranking #	
Read Country Specific Info including rankings on Transportation infrastructure (circle one)	Highly Developed Developing Less Developed
Read Country Specific Info including rankings on Communication (circle one)	Highly Developed Developing Less Developed
<i>Your Choice</i>	

Name: _____

Period: _____

Part 3: Rostow's Modernization Theory: Based on the data you collected about your country, where does your country fit in Rostow's Modernization Theory's Stages of Development? Circle appropriate stage below.

Stage 1: Traditional

Stage 2: Preconditions for Take off

Stage 3: Take Off

Stage 4: Drive to Maturity

Stage 5: High Mass Consumption

Using evidence (data collected) and your prior knowledge of theory, justify your decision in box below (in complete sentences):

Part 4: Wallerstein's World System Theory: Based on the data you collected about your country, where does your country fit in Wallerstein's World System Theory? Circle appropriate stage below.

Core

Semi-Periphery

Periphery

Using evidence (data collected) and your prior knowledge of theory, justify your decision in box below (in complete sentences):

Period: _____

1. Based on your research, do you predict that your country's HDI will change? If so, how? If not, why?
2. Based on your research, do you predict that your country's Stage of Development (Rostow) will change? If so, how? If not, why?
3. Based on your research, do you predict that your country's classification in Wallerstein's World Systems Theory will change? If so, how? If not, why?
4. What is the number one area you would recommend to your assigned country's government to increase development?
5. What is the number one critique you have about one of the theories (Rostow's & Wallerstein's)? In other words, do you think one of these theories overlooks other important indicators of development or makes an erroneous assumption about development? Explain. (*Food for thought: Does Dependency Theory offer additional insights not offered by other theories?*)
