

Day 30, November 9 & 13, Unit 3

AGENDA

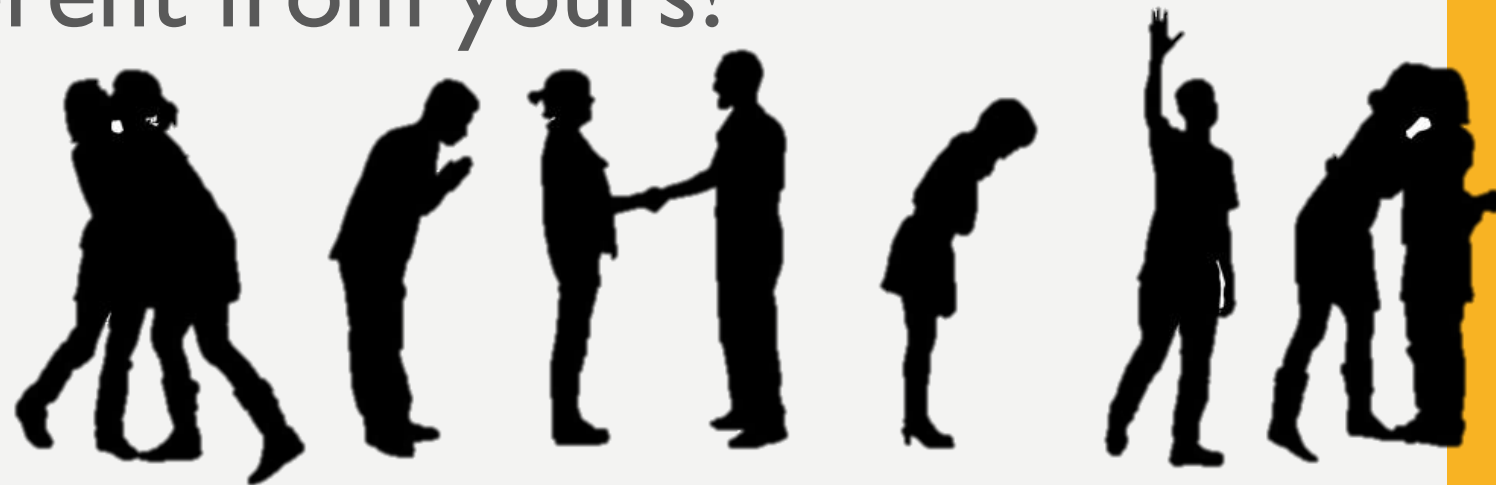

1. Candy Culture Activity
2. 3.1 Introduction to Culture Notes
3. Unit 2 Reading Guide Feedback
4. Culture Stations (Pop v. folk culture stations; 3.2 Cultural Landscapes)

Reminders:

- 1) Exam Retake and Make up is offered on Tuesday, 11/14 at 7:45 a.m. and 4:25 p.m.
- 2) Ch. 2 & 3 Reading Guide Corrections will be due no later than Friday, 11/17 (A Day); Monday, 11/27 (B Day)
- 3) Last day for Unit 2 late work is Tuesday, 11/14 (A) & Wed. 11/15 (B)

CANDY CULTURE SIMULATION

- You will be interacting with people of different cultures today
- Remember to stick to the rules and regulations of your culture, even if others' cultures are different from yours!

CANDY CULTURE SIMULATION- MEET WITH AS MANY NEW CULTURES AS POSSIBLE

- How to interact with peers as you meet them:
 - Greeting (according to your cultural custom)
 - State which culture you are from
 - Ask: How are you?
 - Ask: What do you do for a living?
 - Ask: What do you think of the weather today?

FOLLOW-UP QUESTIONS

- What was the most difficult thing about interacting with different cultures?
- What did you learn from this simulation?
- In your opinion, is it important to study culture? Why or why not?

How would you describe your culture?

Objectives

2.1: Define characteristics, attitudes, and traits that influence geographers when they study culture.

2.2: Describe the characteristics of cultural landscapes.

Explain how landscape features and land and resource use reflect cultural beliefs and identities.

INTRODUCTION to CULTURE

How human societies meet their needs in unique ways

WHAT IS CULTURE?

- **Culture is a group of belief systems, norms, and values practiced by a people.**
 - comprised of shared practices/rituals, technologies, attitudes, and behaviors transmitted by a society from generation to generation.
- **Cultural trait: Individual aspect of a culture**
 - Some cultural traits are easy to identify (clothing, literature, food, music, holidays, greetings, etc.) while others may not be (attitudes, beliefs, etc.).

Social Norms

the unwritten rules of beliefs, attitudes, and behaviors that are considered acceptable in a particular social group or culture

Types of Social Norms

Folkway

Norm that stems from and organizes casual interactions

More

Norm that structures the difference between right and wrong

Taboo

Strong negative norm; violating it results in extreme disgust

Law

Norm that is formally inscribed at the state or federal level

- **Folkways/Customs (type of norm)**

- frequent repetition of an act until it becomes characteristic of a group of people
 - EX: Kissing on cheeks as a greeting(even with new people) like in France
 - If you break a social custom or folkway,it's a faux pas (embarrassing or tactless but not a huge deal)

- **Mores(type of norm)**

- often unwritten informal norms or rules considered offensive to violate; might not break the law but morally unacceptable
 - EX: Adultery, lying, disrespecting your parents

- **Taboos**

- very strong negative norm, prohibits certain behaviors that are considered such a violation that it produces disgust or even expulsion from the group
 - EX: Incest, Cannibalism

When Cultures Meet & Mix

- **Cultural change** can occur when groups from one culture move to a new place
- **Cultural convergence:** cultures mix together and become more similar
 - Tex-Mex
 - Tejano Music
 - Rock & Roll
- **Cultural divergence:** cultures are so different that they can become less similar - remain segregated / apart from each other
 - Amish in the US

Role of Cultural Norms

- Cultural norms (shared standards and patterns that guide the behavior of the group) play an important role in upholding traditions
 - allowing norms to be passed on to the next generation
- Provides order, organization to that society
- Provides unique group identity
- At times, may resist change

Attitudes about Cultures

- **Ethnocentrism:** the tendency of ethnic groups to evaluate other groups according to preconceived ideas originating from their own culture
 - Example: “That culture eats differently than my culture. That difference makes that culture less civilized or inferior to my own.”
 - Degrees of variation
- **Cultural relativism:** evaluation of a culture solely by its unique standards
 - Put aside your own thoughts on culture to understand the context behind cultural practices of another culture
 - Example: “This culture eats more foods with their hands instead of using utensils like my own. I asked why they do this and they said that eating is a very intimate experience for them and they prefer to honor that intimacy by not utilizing utensils. Well, it works for them. Different strokes for different folks.”

Culture can be grouped into two categories

Folk = Local or Traditional

Pop = Globalized or Mainstream

FOLK (Local) CULTURE

TRADITIONALLY PRACTICED BY A SMALL, HOMOGENEOUS, RURAL GROUP LIVING IN
RELATIVE ISOLATION FROM OTHER GROUPS

ORIGIN

Folk culture has anonymous hearths, or multiple hearths. Exact dates of origin are usually unknown

DIFFUSION

Transmitted slowly and on a small scale. Most commonly diffuses when people migrate (Relocation Diffusion).

DISTRIBUTION

Distribution is influenced by physical and cultural factors,
reflective of barriers or migration patterns

Tend to be more isolated

PAPUA NEW GUINEA

INFLUENCES OF PHYSICAL ENVIRONMENT

Usually of limited scale and scope but do rely on it for materials and food

Agricultural: fields, terraced farming, grain storage

Dwellings: historically created from local materials: wood, brick, stone, skins; often uniquely and traditionally arranged; always functionally tied to physical environment (climate influenced).

POP CULTURE

FOUND IN A LARGE, HETEROGENEOUS SOCIETY THAT SHARES CERTAIN HABITS DESPITE DIFFERENCES IN PERSONAL CHARACTERISTICS.

ORIGIN

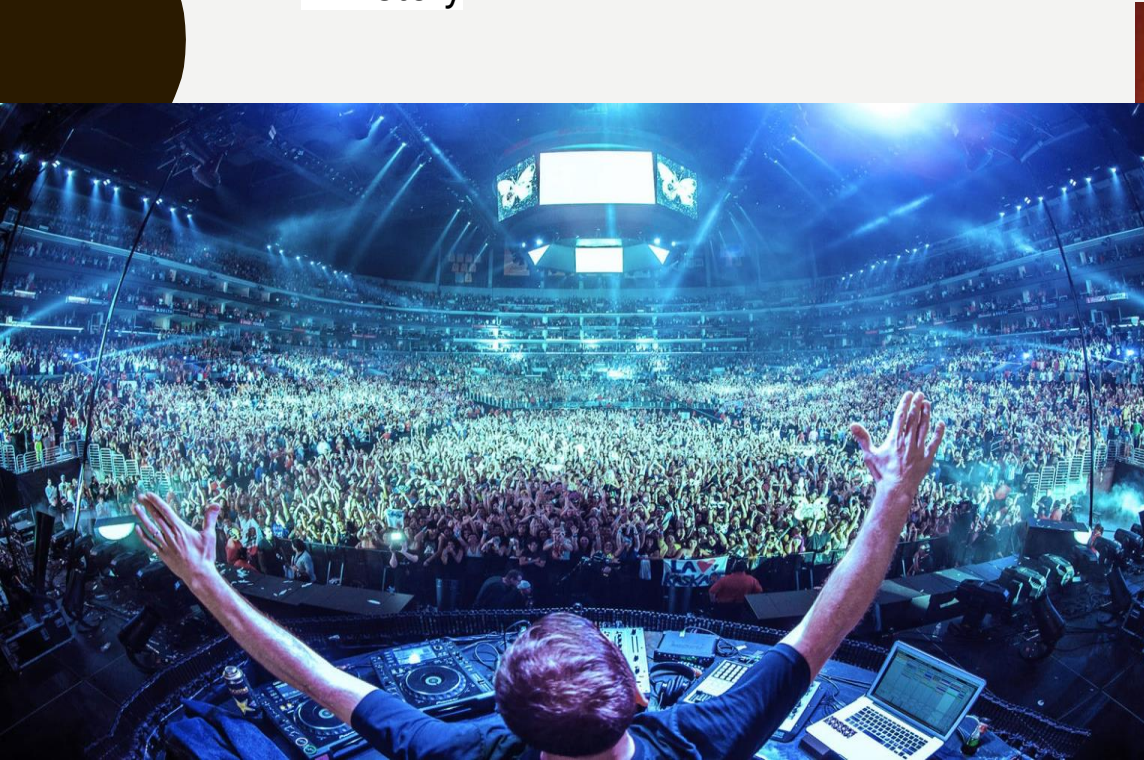

Typically traceable to a specific person, group or place. Often a product of developed countries.

DIFFUSION

Spreads via hierarchical and/or contagious diffusion. Usually rapidly with the help of modern communication tech.

- * Hierarchical: The spread of an idea from persons or nodes of authority or power to other persons or places. Examples- Birkenstocks, Christianity, styles of clothing, music.
- * Contagious diffusion is a kind of cultural diffusion that relies on direct person-to-person contact for the spread of ideas, information, and knowledge. Examples: Viral Internet Content, missionary religions like Christianity, tea and coffee drinking in history

DISTRIBUTION

Widely distributed across many countries with little regard for physical factors. The main obstacle is access to income to purchase the material/commodity

INFLUENCES OF PHYSICAL ENVIRONMENT

- Tends to transcend/overcome physical geographic barriers;
- Sometimes cultural barriers provide resistance
- Creates homogenous, “placeless” landscape (everywhere looks the same)
 - Complex network of roads and highways
 - Commercial structures tend toward ‘box stores’
 - Dwellings may be aesthetically suggestive of older folk traditions but modernized or cookie cutter suburbs

Culture Stations: Schoology Unit 3, Day 30 folder

- Station 1: Bhutan
 - Watch the Bhutan video and look for examples of folk and pop culture
- Station 2: Cultural Landscape (3.2 Key Concept)
 - Examine the cultural landscape examples and note the traits you see
- Station 3: Music
 - Listen to the music in order to determine whether it is pop or folk
- **Station 4: Culture of the Nacirema**
 - Read the article included in yellow packet and answer the questions
