# Day 32, November 16 & 17,

## Unit 3

**Turn in Culture  
Stations Packet**

- 1. 3.4 Diffusion Notes
  - 2. 3.5 Hist. Causes of Diffusion Notes
  - 3. Language DBQ & FRQ
-

# Objectives

---

---

3.4: Define Types of Diffusion

3.5: Explain how historical processes impact current cultural patterns

---

---

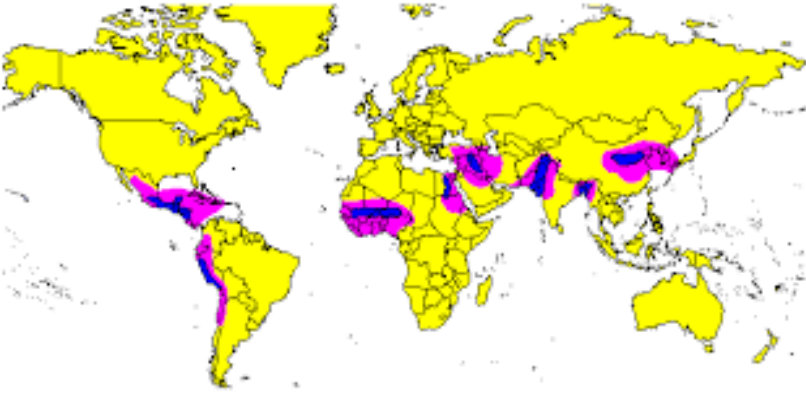

# Types of Diffusion Review

The image is a collage illustrating five types of diffusion, with a man standing on the left side. The types are arranged in a grid-like fashion:

- Contagious**: Represented by a red background with social media icons (Twitter, YouTube, Facebook) and a play button icon.
- Stimulus**: Represented by a yellow McDonald's sign.
- Expansion**: Represented by a green background showing a plant growing from a jar of coins.
- Hierarchical**: Represented by a white background with a hierarchical tree diagram showing people icons.
- Relocation**: Represented by a blue background with an airplane icon.

At the bottom, the text **Types of Diffusion** is written in large white letters on a blue background. To the left of this text, the words **Human** and **Geo** are written vertically in white.

Location of the World's Ancient Culture Hearths

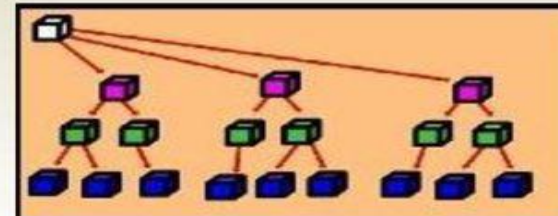

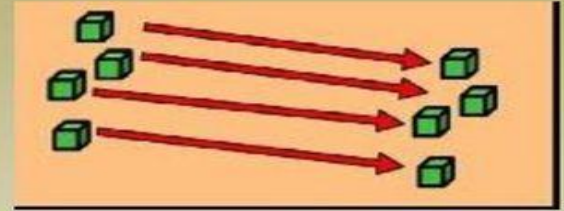

# Cultural Hearth

Center where cultures or cultural trends/trait develop and from which ideas and traditions spread (diffuse) outward; ancient (folk) and modern (pop) hearths exist

# Main Types of Diffusion:

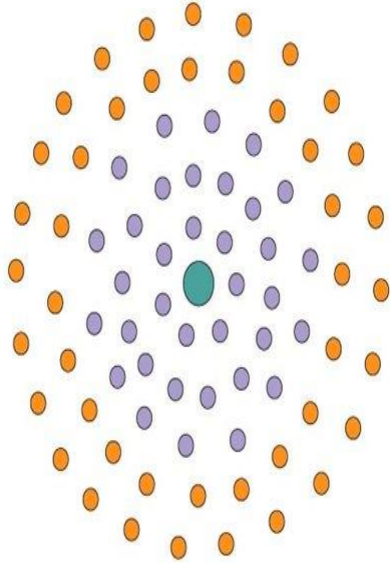

- **Relocation diffusion:** through physical movement/migration. People migrate, take their culture with them. (idea is physically carried from A → B, sometimes over big barriers)
- **Expansion diffusion:** spread without physical relocation from one place to more places in a snowballing process as more people/area is exposed. In process, it remains + often strengthens in the origin area.
  - **Contagious, Hierarchical, Stimulus**

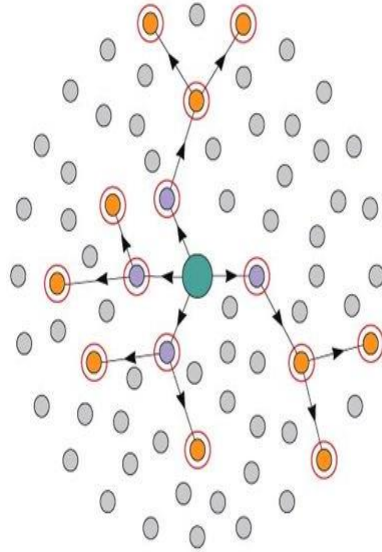

## Contagious vs. Hierarchical Diffusion

(Both forms of expansion diffusion because the innovation can spread while people stay in place.)

### Contagious Diffusion

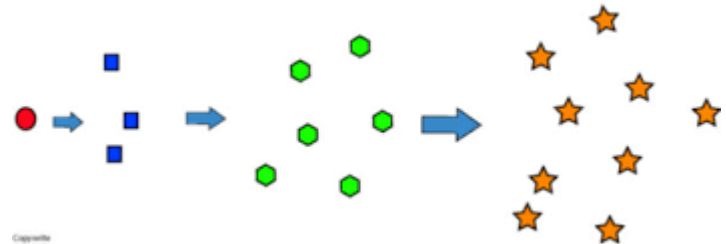

The innovation spreads outward through direct person to person contact. No jumping.

### Hierarchical Diffusion

The innovation spreads from one power node to another jumping over intervening areas.

**Stimulus Diffusion:** Stimulus diffusion is when the innovation is not directly adopted, but ideas promote local experimentation and eventual changes in ways of doing things. A group takes an idea and goes their own way with it.

**The cultural patterns of today have their roots in the past.**

- **Countries with strong military and economic power have always imposed elements of their cultures on countries with less power.**
- **Trade, Missionary Work & Migration have also facilitated the spread/diffusion of ideas, cultures.**

# Old/Early Colonialism & “New” Imperialism

- 16th - 19th centuries → primarily European countries  
→ North America, Central & South America; Africa;  
South, East, & Southeast Asia
- **Early Colonialism** = a powerful country established settlements in a less powerful region (for economic and/or political gain); mostly in Americas (16-18th ca)
- **New Imperialism (19th century)** = a country enacts policies to extend its influence over other countries through diplomacy or force (colonialism often without large scale colonial settlements); Asia & Africa
- Helped to shape the borders we know today
- SPREAD EUROPEAN CULTURE ACROSS THE WORLD

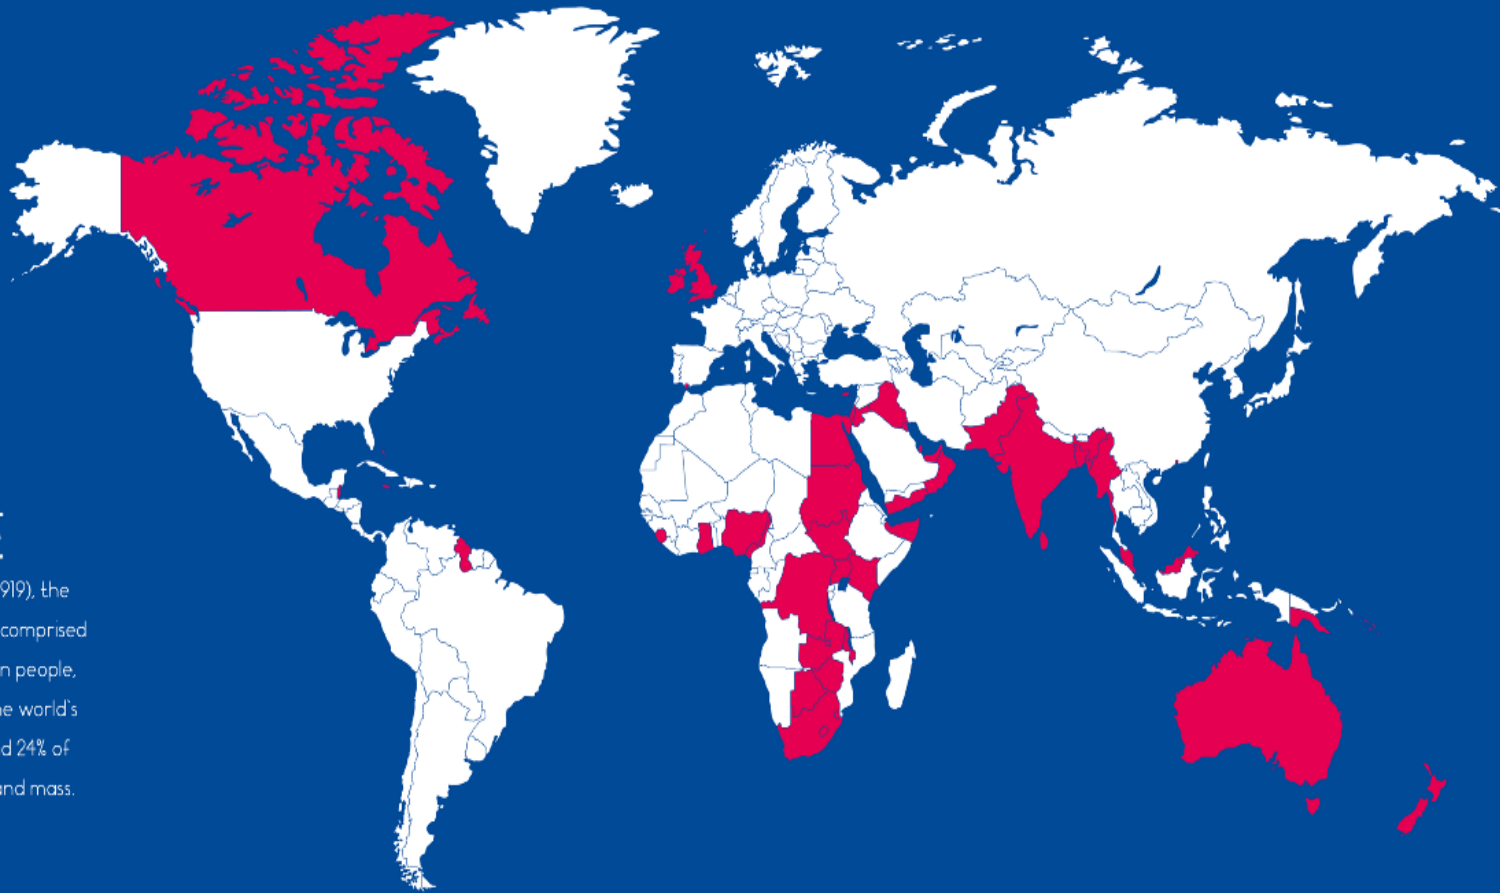

“ I contend that we are the finest race in the world and that the more of the world we inhabit the better it is for the human race. —Cecil Rhodes

## The Apex of Empire

At its height (1919), the British empire comprised some 412 million people, then 23% of the world's population, and 24% of Earth's total land mass.

# South Africa: Video

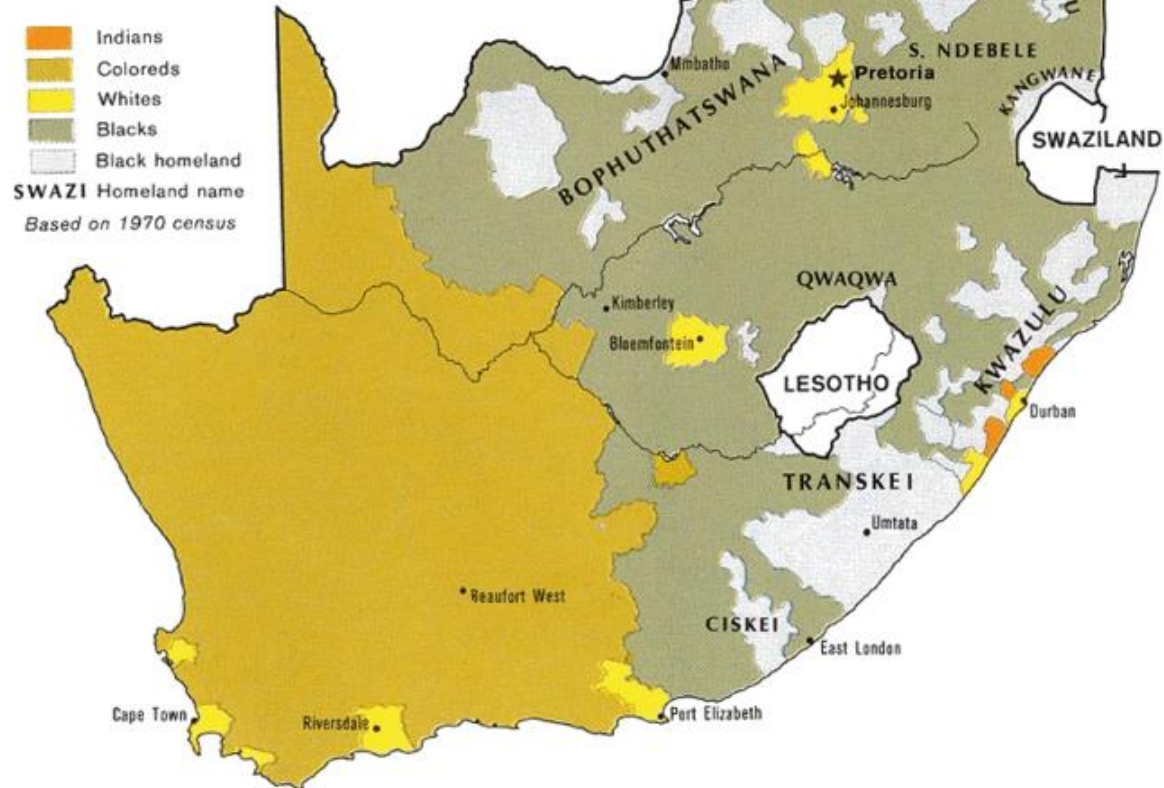

- Supply port for the Dutch East India Company
- 17th century; the Netherlands in the southern tip of Africa, introduced discriminatory policies
- Enslaved the natives and participated in global slave trading
- Dutch settlers were offered land ownership and could farm the land for profit
- Afrikaans → Dutch language combined with local native language (creole language) - language diffusion & patterns
- The British ended up taking over this area during the Napoleonic Wars (it's complicated)
- 1910 Union of South Africa formed: introduced segregationist policies and restricted black land ownership, disenfranchised black South Africans
- Ethnic Pattern: Apartheid established in 1948 - 1994: moving Black South Africans to "reserves;" Disenfranchisement; Segregation

# Racial Concentrations and Homelands

Racial concentrations of 30% or more by magisterial district

NOTE: Portions of Colored, Indian, and white areas may also have an equal or slightly larger percentage of other racial groups. Black areas have no other racial groups as high as 30%. Homelands are traditional areas set aside by the South African government for specific black ethnic groups. All have a black population in excess of 90%. Bophuthatswana, Transkei, and Venda have been granted nominal independence by South Africa.

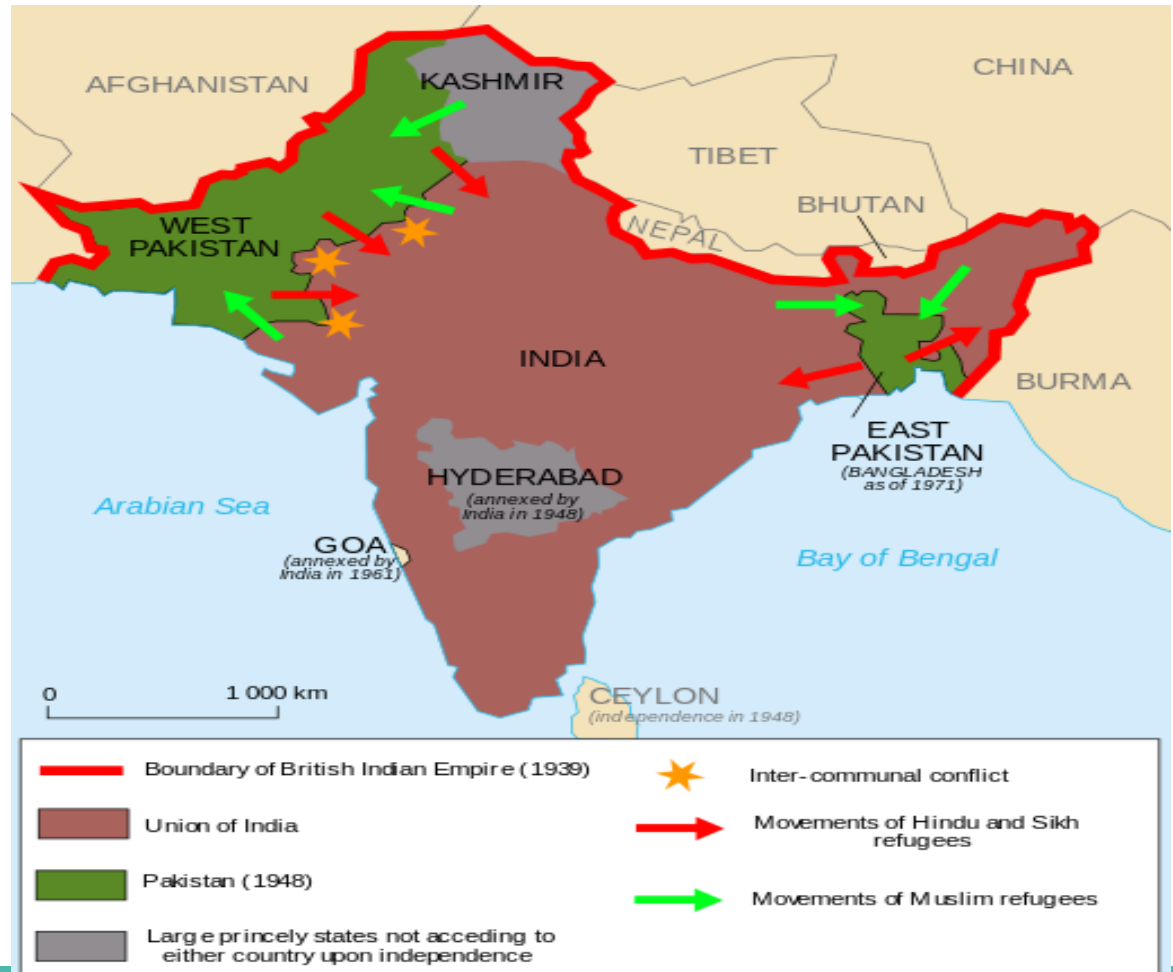

# India

- 18 - 20th century; the British Raj (rule of regions by BEIC) and later in 1857 official direct rule of India by Government of Great Britain (Queen Victoria declared Empress of India)
  - BEIC: British East India Company → called India "The Jewel of the Empire"
- 125 million Indians speak English (it is one of the country's official languages) - language diffusion & pattern
- Christianity is the 3rd most practiced religion (diffusion & pattern)
- Cricket, soccer, and field hockey are extremely popular and diffused via British
- Partition of India in 1947: created two states based on religious identity; spurred massive violence and forced migrations (shaped religious pattern)

# India: Video

# Military Conquest

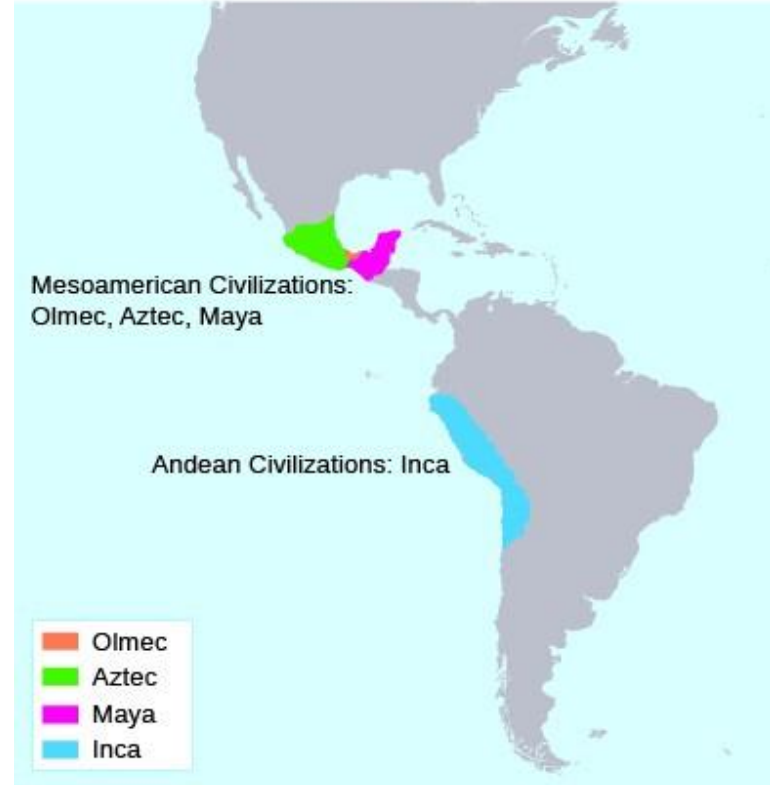

Very rapid cultural change → conqueror imposes their way of life on the newly conquered

Ex. Spanish conquered the Aztecs (Mexico) and Incas (Peru)

Spanish is the main language of most of Central & South America and Catholicism is the most practiced religion

\*Spanish became the lingua franca of the region\*

**Major Cultural Centers in Mesoamerica and South America**

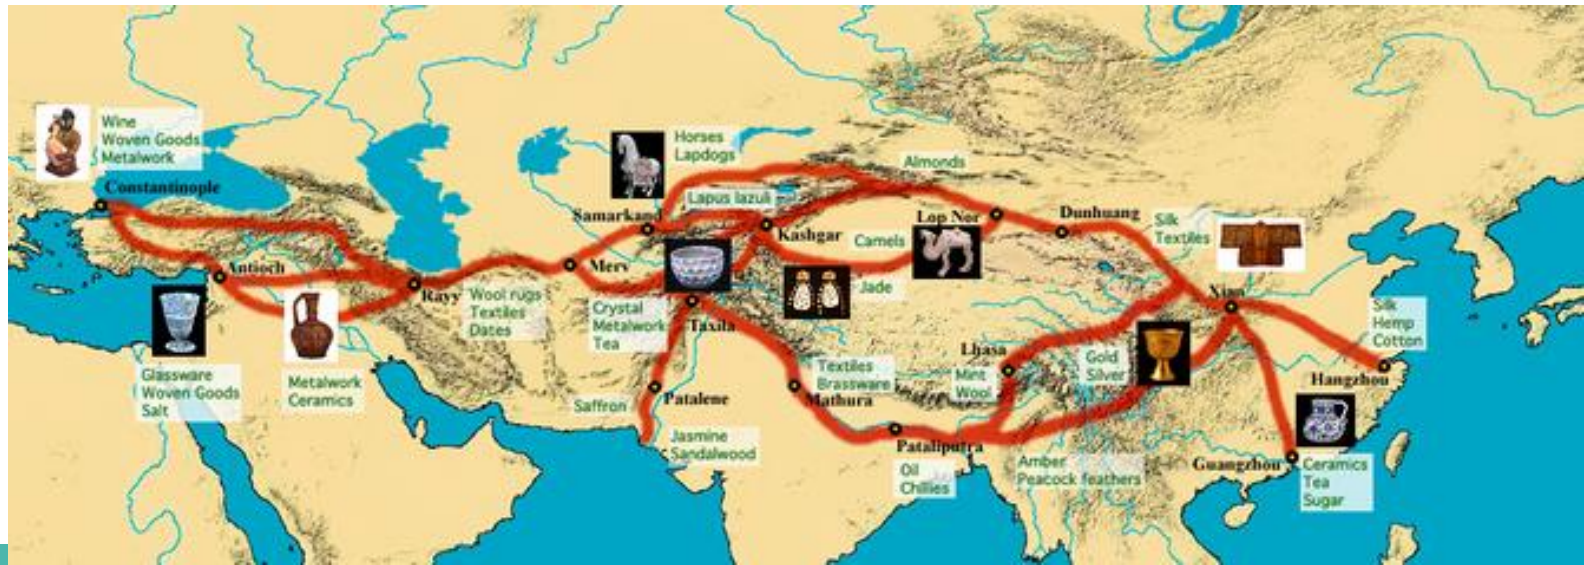

# Trade

Interaction between people from different places leads to an exchange of ideas, values, technologies, practices, etc.

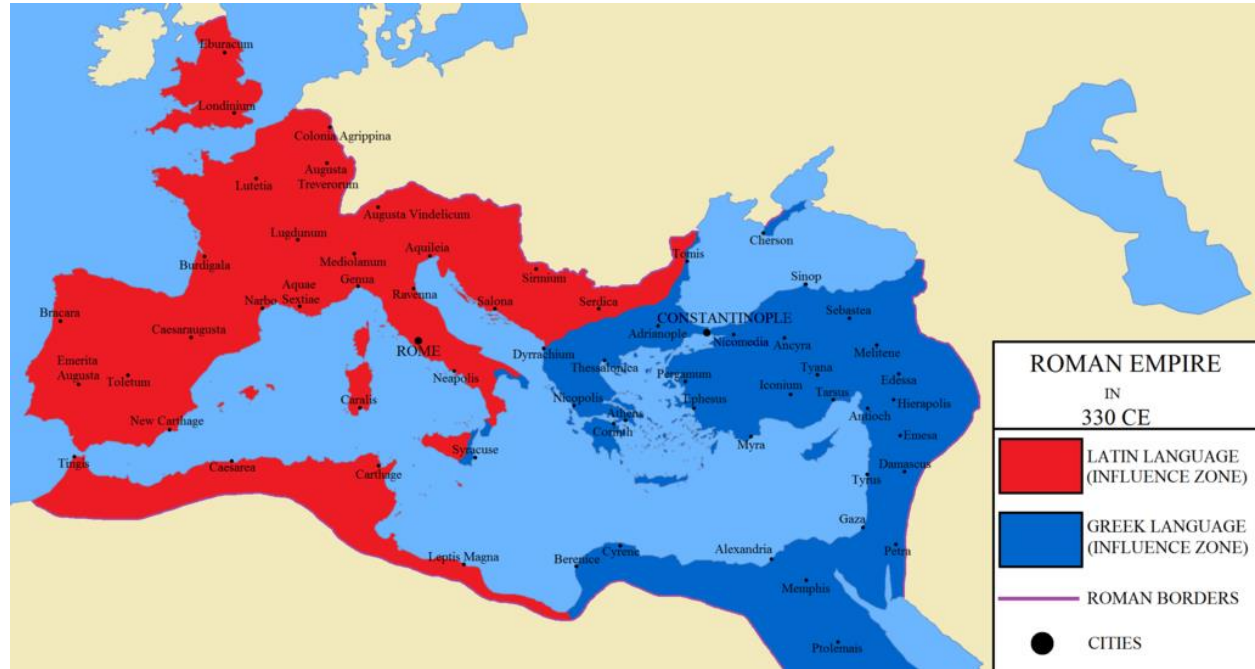

Ex. The Silk Road

# Migration

Spread of ideas between countries and regions as people move around and relocate

Ex. Romance languages in Europe evolved from Latin and diffused throughout the Roman Empire

# Migration

Culture can also change as people migrate to new areas - words or phrases from a new foreign language may be incorporated into the dominant language

Ex. English in England, the US, Canada, Australia, New Zealand, and South Africa

Color → Colour  
Organize → Organise  
Center → Centre  
Tire → Tyre

| The small part of the vocabulary differences                                                      |                                                                                                     |                                                                                                     |                                                                                                      |

| Biscuit                                                                                           | Cookie                                                                                              | Post box                                                                                            | Mailbox                                                                                              |
| Car park                                                                                          | Parking lot                                                                                         | Racing car                                                                                          | Race car                                                                                             |
| Chips                                                                                             | French fries                                                                                        | Railway                                                                                             | Railroad                                                                                             |
| Cinema                                                                                            | Movie theatre                                                                                       | Sailing boat                                                                                        | Sailboat                                                                                             |
| Crisps                                                                                            | Chips                                                                                               | Sweet                                                                                               | Candy                                                                                                |
| Flat                                                                                              | Apartment                                                                                           | Trainers                                                                                            | Sneakers                                                                                             |
| Football                                                                                          | Soccer                                                                                              | Underground                                                                                         | Subway                                                                                               |
| Footway                                                                                           | Sidewalk                                                                                            | Wardrobe                                                                                            | Closet                                                                                               |
| Garden                                                                                            | Yard/lawn                                                                                           | Windscreen                                                                                          | Windshield                                                                                           |
| Holiday                                                                                           | Vacation                                                                                            | Zed(letter Z)                                                                                       | Zee(Letter Z)                                                                                        |

# Migration & Relocation & Expansion

## Diffusion

"Traditional" American items are not so American either → cultural interaction

Hot dogs, Hamburgers, Pretzels, etc. → Germany

**Vaquero:** Cowboys and Cowboy Culture (hats, boots, spurs, lasso, etc.) → Mexico

Mexican vaqueros of the Wild West show, ca. 1901. MS6 William F. Cody Collection. P.69.47 (detail)

# DBO/FRO: How has the English language diffused around the world?

## Instructions

- Click on Link
- You will have some time to work on this in class after the break
- Focus on Reading Chapters and completing reading guide over the break
