

## Reading Religious Maps

Use the maps (colored versions in Schoology) to help you answer the analysis questions below.

1. Which continent is most culturally diverse when it comes to religion? Which is the least diverse? Explain your reasoning using specific trends you see on the map.
2. Which areas of the world are least impacted by popular culture? List out three different regions, explain your reasoning, and include two factors that might have led to that.

Name: \_\_\_\_\_

Period: \_\_\_\_\_

3. What two areas of the world would you most expect to see religious-based violence? Why do you think those regions might be hot spots for violence?

4. Which religion(s) have most likely spread through relocation diffusion? Through contagious diffusion? Why?

5. Use the religion map and the population density map to attempt to determine the top three religions by number of followers. Your answer should include geographic evidence.
