

## HW 5.3.3: An Advanced Qualitative Look at Rates

1.) Sketch the acceleration vs. time graph for each of the velocity vs. time.

2.) Below are six graphs, three of which graphs of the rate of change of the other three. Match each function with its corresponding rate of change graph.

3.) Match the situation descriptions with the corresponding velocity vs time graphs in Fig. 16.

- A. A sprinter quickly leaving the starting line.
- B. A car cautiously leaving from a stop sign.
- C. A student bouncing on a trampoline.
- D. A ball thrown straight up.
- E. A student confidently striding across campus to take a Precalculus test.
- F. An unprepared student walking across campus to take a Precalculus test.
